

# COVID-19 Accessibility Vaccination Clinic

Would you or someone you care for benefit from attending the **COVID-19 Accessibility Vaccination Clinic**?

Every Thursday morning appointments are available at the Accessibility Clinic for people who have a disability, impairment or long-term health condition to have their vaccination administered.

The clinic is a quiet space with low light levels and longer appointment times – please get in touch if you require any assistance for hearing or vision impairments, mobility help, anxiety or other reason that makes it hard for you to access your COVID-19 vaccination.
